

Case Study

- Data and instructions are available here.
 - Odd # teams (e.g., Team 1, Team 3, etc.,) will present to a non-technical audience
 - Even # teams (e.g., Team 2, Team 4, etc.,) will present to a technical audience.

You should start brainstorming with your teammates today and start working on the case tomorrow after class.

Presentations are due on Thursday, February 9th by 2pm. No late submissions will be accepted.

- Upload presentation slides and ipython notebook to your team's folder available here.
